- Data Cleaning & Validation
- KPI Reporting & Performance Tracking
- Dashboard Development
- Data Visualization
- Business Intelligence
- Trend Analysis
- Process Improvement
- Documentation & Reporting

PROJECTS

Marketing Campaign Performance Analysis | Power Query + Power BI

March 2026

- Analyzed marketing campaign performance data to evaluate customer engagement and campaign effectiveness.
- Created interactive dashboards to track key performance indicators and communicate findings to stakeholders.
- Identified trends and patterns within customer response data to support strategic decision-making.
- Utilized data visualization techniques to simplify complex datasets and improve reporting efficiency.

Workforce Compensation & Demographic Analysis | Excel Dashboard

February 2026

- Analyzed workforce dataset of 3,000 employees across 50 U.S. states using advanced Excel techniques.
- Cleaned and structured complex employee data for compensation and workforce trend analysis.
- Found that employees aged 18–29 earned the highest average salary, challenging common compensation assumptions.
- Identified that 34% of employees earned \$90K+, supporting salary benchmarking insights.
- Designed executive-ready dashboards to present demographic, compensation, and tenure trends.
Delivered recommendations for workforce planning, recruitment strategy, and compensation review.

PROFESSIONAL EXPERIENCE

Property NG

Lagos, NG
